2014 Volunteer Announcement **Wildlife Biological Technicians**

Positions: Two Wildlife Biological Technicians for spring/summer field work from approximately May 19 through September (as available). Positions are volunteer; government housing may be available.

Work Description: Work primarily will include: field surveys for goshawk, other raptors, boreal toad, leopard frog, and flammulated owl on District project areas; Preble's meadow jumping mouse trapping and amphibian surveys to determine distribution; field survey form completion; and season-end report preparation and database entry. Also, may include boreal owl survey, breeding bird surveys, aspen stand condition assessment, snag monitoring, and monitoring of other habitat structures. Training will be provided. Selected applicants will work with a crew leader and typically work together. Most field work will occur on Canyon Lakes Ranger District, but some work also will occur on Boulder RD.

Primary work schedule will be four 10-hour days (typically 7 AM to 5:30 PM, Monday through Thursday). Some irregular and night work would be required for Preble's mouse trapping and owl survey. All night survey work will be conducted as a crew for safety. Survey and inventory work will require cross-country foot travel on uneven terrain in variable weather conditions. Must have valid driver's license.

How to apply: Please submit resume with references and college transcripts by e-mail (doberlag@fs.fed.us) or to the address below. For further information, contact Dale Oberlag at 970-295-6765. Canyon Lakes Ranger District, 2150 Centre Avenue, Building E, Fort Collins, CO 80526-8119
